COMMUNICATING AT THE TOP

By George de Mare

The ability to plan, organize, administer, and control isn't quite enough for success at the upper corporate echelons. This myth-shattering book gives you the communication techniques—and how to use them best—to not only reach and influence others, but also inspire fast, proper action.

This important author and much sought-after consultant shows you how to: improve channels of communication...build a sound company-wide communications program...and choose the right level and form for your business communications. 270 pp. (1979)
